Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

1. Claims 5, 6, 20-45, 51-67 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 5,20,32,51, The prior art of record considered alone or in combination neither anticipates nor renders obvious a monitoring device for monitoring a target comprising, a microcontroller, a wireless transceiver, a modem, a global positioning sensor , an interface between monitoring device and target for communicating signals relating to target, one or more inputs, one or more outputs from monitoring device to target one or more inputs and a plurality of outputs from monitoring device during installation of monitoring device to target such that each of one or more inputs and each of one or more outputs are identified as to their nature and stored in a database for each of a plurality of monitoring devices.

The prior art of record provided numerous teachings of methods for continuous electronic monitoring and tracking of individuals. However, the prior art of record failed to specifically disclose an interface between monitoring device and target for communicating signals relating to target, one or more inputs, one or more outputs from monitoring device to target one or more inputs and a plurality of outputs from monitoring device during installation of monitoring device to target such that each of one or more inputs and each of one or more outputs are identified as to their nature and stored in a database for each of a plurality of monitoring devices.

3. ***Regarding claims 21-31, 33-45, 52-67*** are allowed as being dependent upon independent base claims that have been allowed.
